

# SAFETY DATA SHEET

V-Screen Apple Orchard

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of th	e substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	V-Screen Apple Orchard
Internal identification	V-SCREEN RED
UFI	UFI: 0X50-T09A-Y001-1XD5
1.2. Relevant identified uses of	f the substance or mixture and uses advised against
Identified uses	Urinal Screen
Uses advised against	Use only for intended applications.
1.3. Details of the supplier of the	ne safety data sheet
Supplier	Vectair Systems Ltd Unit 3, Trident Centre, Armstrong Road, Basingstoke, Hampshire, RG24 8NU, UK +44 1256 319500 emea.info@vectairsystems.com
Contact person	Product development
1.4. Emergency telephone nun	nber
Emergency telephone	Vectair Systems Ltd +44 1256 319500 (Office Hours 09:00am to 17:00pm)
National emergency telephone number	111 NHS Direct (England/Wales 0845 46 47; NHS 24 Scotland 08454 24 24 24)
SECTION 2: Hazards identifica	ation
2.1. Classification of the substa	ance or mixture
Classification (EC 1272/2008)	
Physical hazards	Not Classified
Health hazards	Skin Irrit. 2 - H315 Skin Sens. 1 - H317
Environmental hazards	Not Classified
Classification in accordance with Directive 1907/2006/EEC	
2.2. Label elements	
Hazard pictograms	

Signal word

Warning

Hazard statements	H315 Causes skin irritation. H317 May cause an allergic skin reaction.
Precautionary statements	<ul> <li>P103 Read label before use.</li> <li>P280 Wear protective gloves.</li> <li>P302+P352 IF ON SKIN: Wash with plenty of water.</li> <li>P333+P313 If skin irritation or rash occurs: Get medical advice/ attention.</li> <li>P501 Dispose of contents/ container in accordance with national regulations.</li> </ul>
Contains	Eucalyptus Oil (Eucalyptus Globulus Labille), Benzyl salicylate, Alpha,alpha- dimethylphenylethyl butyrate, syzygium aromaticum I. oil, (E)-anethole

## 2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients	
3.2. Mixtures	
but-3-enoic acide, ethene	60-100%
CAS number: 24937-78-8	
bis(2-ethylhexyl) adipate	5-10%
CAS number: 103-23-1	
Orange Terpenes	1-2.5%
CAS number: 68647-72-3	
Eucalyptus Oil (Eucalyptus Globulus Labille)	1-2.5%
CAS number: 8000-48-4	
Benzyl salicylate	1-2.5%
CAS number: 118-58-1	1 2.070
syzygium aromaticum I. oil	1-2.5%
CAS number: 8000-34-8	1 21070
Alpha,alpha-dimethylphenylethyl butyrate	1-2.5%
CAS number: 10094-34-5	
A mixture of: cis-tetrahydro-2-isobutyl-4- methylpyran-4-ol;	0.25-1%
trans-tetrahydro-2-isobutyl-4- methylpyran-4-ol	
CAS number: 63500-71-0	
(E)-anethole	0.25-1%
CAS number: 4180-23-8	
2-tert-Butylcyclohexyl acetate	0.25-1%
CAS number: 88-41-5	

4 2 4 6 7 9 househudes 4 0 4	R 7 9 9 hovemethylindens/E 6
1,3,4,6,7,8-nexanydro-4,6,6 c]pyran	6,7,8,8-hexamethylindeno[5,6- 0.25-1%
CAS number: 1222-05-5	EC number: 214-946-9
2,6-di-tert-butyl-p-cresol	0.25-1%
CAS number: 128-37-0	
Benzoic acid	0.25-1%
CAS number: 65-85-0	EC number: 200-618-2
benzyl benzoate	0.25-1%
CAS number: 120-51-4	EC number: 204-402-9
Citric Acid	0.25-1%
CAS number: 77-92-9	
menthol	0.25-1%
CAS number: 89-78-1	
SECTION 4: First aid measu	Ires
4.1. Description of first aid m	neasures
General information	Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.
Inhalation	Due to the physical nature of this product, exposure by this route is unlikely. Get medical attention if any discomfort continues.
Ingestion	Not relevant. If in doubt, get medical attention promptly.
Skin contact	In the event of any sensitisation symptoms developing, ensure further exposure is avoided. Remove contamination with soap and water or recognised skin cleansing agent. Get medical attention if symptoms are severe or persist after washing.
Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes.
Protection of first aiders	No specific requirements are anticipated under normal conditions of use.
4.2. Most important symptor	ns and effects, both acute and delayed
General information	See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
nhalation	Symptoms following overexposure may include the following: Irritation of nose, throat and airway. Headache.
Ingestion	May cause sensitisation or allergic reactions in sensitive individuals. May cause irritation.
Skin contact	May cause skin sensitisation or allergic reactions in sensitive individuals. Redness. Irritating to skin.
Eye contact	No specific symptoms known.
4.3. Indication of any immed	iate medical attention and special treatment needed

Notes for the doctor

Treat symptomatically. May cause sensitisation or allergic reactions in sensitive individuals.

### SECTION 5: Firefighting measures

5.1. Extinguishing media		
Suitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
5.2. Special hazards arising fro	om the substance or mixture	
Specific hazards	None known.	
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.	
5.3. Advice for firefighters		
Protective actions during firefighting	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.	
SECTION 6: Accidental release	e measures	
6.1. Personal precautions, pro	tective equipment and emergency procedures	
Personal precautions	No action shall be taken without appropriate training or involving any personal risk. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Avoid contact with skin and eyes.	
6.2. Environmental precaution	<u>s</u>	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.	
6.3. Methods and material for	containment and cleaning up	
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Collect and place in suitable waste disposal containers and seal securely. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.	
6.4. Reference to other section	15	
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.	
SECTION 7: Handling and storage		
7.1. Precautions for safe handling		
Usage precautions	No specific requirements are anticipated under normal conditions of use. Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet.	

- Advice on generalNo specific requirements are anticipated under normal conditions of use. Wash promptly ifoccupational hygieneskin becomes contaminated.
- 7.2. Conditions for safe storage, including any incompatibilities

Storage precautions	Store in accordance with local regulations. Keep only in the original container. Keep container tightly closed and in a well-ventilated place. Keep containers upright. Protect containers from damage.
Storage class	Miscellaneous hazardous material storage.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure controls/Personal protection	

### 8.1. Control parameters

Occupational exposure limits

### 2,6-di-tert-butyl-p-cresol

Long-term exposure limit (8-hour TWA): WEL 10 mg/m<sup>3</sup> WEL = Workplace Exposure Limit.

### Ingredient

### 8.2. Exposure controls

#### Protective equipment

Appropriate engineering controlsPersonal protective equipment should only be used if worker exposure cannot be controlled adequately by the engineering control measures. Ensure operatives are trained to minimise exposure.Eye/face protectionEyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.Hand protectionChemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.Other skin and body protectionAppropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Ensure all respiratory protective equipment is suitable for its intended use and is 'CE'-marked. Check that the respirator protective equipment is suitable for its intended use and is 'CE'-marked. Check that the respirator sith tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with European Standard EN136. Half mask and quarter mask respi		
eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. ### SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties	
Appearance Solid.	
Colour Transparent	
Odour Characteristic.	
Odour threshold Not determined.	
pH Not applicable.	
Melting point Not determined.	
Initial boiling point and range >100oC	
Flash point> 75°C	
Evaporation rate Not applicable.	
Evaporation factor Not determined.	
Flammability (solid, gas) Not determined.	
Upper/lower flammability or Not determined. explosive limits	
Other flammability Not determined.	
Vapour pressure         Not applicable.	
Vapour density Not applicable.	
Relative density Not determined.	
Bulk density0.772 g/cm³	
Solubility(ies) Insoluble in water.	
Partition coefficient Not determined.	
Auto-ignition temperature Technically not feasible.	
Decomposition Temperature Not determined.	
Viscosity Not applicable.	
Explosive properties Not considered to be explosive.	
Explosive under the influence Not considered to be explosive. of a flame	
Oxidising properties Not determined.	
9.2. Other information	
VOC Switzerland Content 5.30%	
Organic solvents 0.2%	
SECTION 10: Stability and reactivity	

10.1. Reactivity

Reactivity	There are no known reactivity hazards associated with this product.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	No potentially hazardous reactions known.
10.4. Conditions to avoid	
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.
10.5. Incompatible materials	
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
10.6. Hazardous decomposition	on products
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.
SECTION 11: Toxicological in	formation
11.1. Information on toxicologi	ical effects
Acute toxicity - oral	
Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - dermal Notes (dermal LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation $LC_{50}$ )	Based on available data the classification criteria are not met.
Skin corrosion/irritation Animal data	Irritating.
Serious eye damage/irritation	
Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	May cause skin sensitisation or allergic reactions in sensitive individuals.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity	
Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	Contains a substance which may be potentially carcinogenic. IARC Group 3 Not classifiable as to its carcinogenicity to humans.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.

Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.
Specific target organ toxicity -	repeated exposure
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard Aspiration hazard	Not relevant. Solid.
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	May cause sensitisation or allergic reactions in sensitive individuals. May cause irritation.
Skin contact	May cause skin sensitisation or allergic reactions in sensitive individuals. Redness. Irritating to skin.
Eye contact	No specific symptoms known.
Route of exposure	Ingestion Inhalation Skin and/or eye contact
Target organs	No specific target organs known.
Medical considerations	Skin disorders and allergies.
SECTION 12: Ecological infor	mation
12.1. Toxicity	
Toxicity	Aquatic Chronic 2 - H411 Toxic to aquatic life with long lasting effects.
12.2. Persistence and degrad	ability
Persistence and degradability	The degradability of the product is not known.
12.3. Bioaccumulative potenti	
Bioaccumulative potential	No data available on bioaccumulation.
Partition coefficient	Not determined.
12.4. Mobility in soil	
Mobility	No data available.
12.5. Results of PBT and vPv	Bassessment
12.6. Other adverse effects	
Other adverse effects	None known.
SECTION 13: Disposal consid	derations
13.1. Waste treatment method	ds
General information	This material and its container must be disposed of in a safe way. Reuse or recycle products wherever possible.
Disposal methods	Collect and place in suitable waste disposal containers and seal securely. Incineration or landfill should only be considered when recycling is not feasible. Dispose of contents/container in accordance with local regulations.

### SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

#### 14.1. UN number

Not applicable.

### 14.2. UN proper shipping name

Not applicable.

#### 14.3. Transport hazard class(es)

No transport warning sign required.

#### 14.4. Packing group

Not applicable.

### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

### 14.6. Special precautions for user

Not applicable.

### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory	information
15.1. Safety, health and e	environmental regulations/legislation specific for the substance or mixture
National regulations	Health and Safety at Work etc. Act 1974 (as amended). The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716). The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. EH40/2005 Workplace exposure limits.
EU legislation	<ul> <li>Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18</li> <li>December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).</li> <li>Commission Regulation (EU) No 453/2010 of 20 May 2010.</li> <li>Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16</li> <li>December 2008 on classification, labelling and packaging of substances and mixtures (as amended).</li> <li>Dangerous Preparations Directive 1999/45/EC.</li> <li>Dangerous Substances Directive 67/548/EEC.</li> </ul>

### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

### Inventories

**EU - EINECS/ELINCS** 

None of the ingredients are listed or exempt.

#### **SECTION 16: Other information**

Classification procedures according to Regulation (EC) 1272/2008	Skin Irrit. 2 - H315: Skin Sens. 1 - H317: : Calculation method. Aquatic Chronic 2 - H411: : Calculation method.
Training advice	Only trained personnel should use this material.
Revision comments	This is the first issue.
Issued by	Compliance Lead - Vectair Systems
Revision date	16/10/2020
Revision	1
SDS number	4919
Hazard statements in full	H315 Causes skin irritation. H317 May cause an allergic skin reaction.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
